CAREER OBJECTIVE

BE Computer Science student with experience in Python, Java, Django, Flask, SQL, and AI-powered web applications. Seeking a Software Development Internship to apply my technical skills and gain hands-on industry experience through real-world projects.

EDUCATION

SDM College of Engineering and Technology, Dharwad

B.E. in Computer Science and Engineering

2023 – 2027

GPA: 8.48 / 10

KLE's Independent PU College, Hangal

Pre-University Course — Science (PCMB)

2021 – 2023

86.33%

SKILLS

Languages: Python, Java, C, JavaScript, SQL

Web : HTML, CSS

Frameworks : Flask , Django

Databases: SQLite, MySQL

Tools: Git, GitHub, VS Code

Concepts: REST APIs, OOP, DBMS

PROJECTS

SmartCampus — AI-Powered Academic Portal & Chatbot

April 2026 – June 2026

Django · Python · SQLite · Google Gemini API · RAG · HTML/CSS/JS

- Built a full-stack Django web application with SQLite and role-based access control for academic management.
- Developed an AI assistant using Google Gemini and Retrieval-Augmented Generation (RAG) for accurate query responses.
- Implemented web scraping, database validation, and secure user authentication for dynamic data management.

AI-Enhanced Bug Tracker

Aug 2025 – Oct 2025

Flask · Python · MySQL · LLM API · HTML/CSS

- Built a web-based bug tracking system where an integrated LLM API auto-summarizes submitted issues and suggests appropriate developer assignments, reducing manual triage effort.
- Designed the backend using Flask and managed issue data with a relational MySQL schema; built a clean frontend for bug submission and status tracking.

Personal Portfolio Website

Sep 2024 – Sep 2024

HTML5 · CSS3 · JavaScript

- Designed and deployed a personal portfolio website with responsive layout, project showcases, and contact form using vanilla HTML/CSS/JS.

CERTIFICATIONS

Cybersecurity Fundamentals – Coursera ([Certificate](#))

01/2024

MongoDB Course Completion Certificate – MongoDB University ([Certificate](#))

08/2024

ACHIEVEMENTS

- Maintained a GPA of 8.48/10 across core CS subjects including programming, data structures, and databases.
- Developed AI-powered full-stack web applications using Django, Flask, SQLite, and MySQL.
- Built and shipped SmartCampus, an end-to-end full-stack + AI project integrating RAG, multi-role auth, and multilingual NLP as a college minor project.
